20. “The Southern Bulb Company, comprised of two dedicated bulb enthusiasts (plus friends and family), seeks to recapture something that was once ‘lost’ to the Southern gardener: bulbs that thrive in warm climates, many of which are heirloom and rare flower bulbs. Our focus is to provide only those bulbs that will do excellent for the warm climate gardener and any tools, artwork, literature, education, or clothing that supports our ‘bulb habit.’”

The Southern Bulb Company is in Golden, Texas. See <https://www.southernbulbs.com/>

Also, *Garden Bulbs for the South*, by Scott Ogden, is a valuable book if interested in bulbs for the South.
